Human Trafficking is a problem 365 days a year.

Millions of men, women and children are victims of human trafficking for sexual, forced labor and other forms of exploitation worldwide. The human and economic costs of this take an immense toll on individuals and communities. Some causes of human trafficking are poverty, ignorance, unemployment in the country, and desperation.

This project seeks donors to work on poverty reduction, offer social services, skills acquisitions, and create public awareness against desperate emigration.

Human trafficking is a multi-billion dollar industry worldwide, where perpetrators profit from the control and exploitation of others. In Nigeria, where over half the population lives in poverty, and youth unemployment stands at 50%, vulnerable people have become easy targets. These people- mostly girls and young women- are trafficked in the commercial sex trade and labor industry every day. According to 2014 statistics, it is estimated that there are currently 10,000 Nigerian prostitutes resident in Italy alone. Other significant destinations include the Netherlands and Spain; and, to a lesser degree, Germany, Belgium, Austria, and the UK.

### BACKGROUND

The City of Light was founded in 2009 and is registered\* in Austria and Nigeria as a non-governmental organization to combat human trafficking by educating and empowering people in rural communities in Nigeria. In most cases, false promises are made regarding jobs or marriages in foreign countries to entrap victims. These victims often suffer physical and emotional abuse, rape, and threats against self and family. The impact of human trafficking thus, spans wide.

### OUR VISION

We believe that the challenges of poverty can be successfully conquered or at least alleviated through education, assistance for capacity development and micro- business initiatives.

### OUR MISSION

Our mission is to provide development and empowerment through capacity development and creation of employment opportunities for less privileged Nigerians. We focus on vocational training as well as technical and financial start-up assistance.
